Dear Administrator/Director of Nursing:

This letter provides information regarding the Minimum Data Set (MDS) data collection periods for the July 2023 Medicaid reimbursement rates.

Please be reminded that the Department is now utilizing all Medicaid assessments to calculate the case mix index. Consistent with past practice, facilities will continue to review and make necessary updates (payor source, BMI, Dementia, Authorized Specialty) to their file on the HCS.

The case mix index for the July 2023 rates will include ALL assessments submitted to CMS **on or before Thursday May 18, 2023** with an ARD between **October 1, 2022 through March 31, 2023**.

The table below provides a high level timeline for the collection process:

Date	Task	Owner
May 24 through June 6, 2023	Review census data (update payer, BMI, TBI, DEM, and Specialty) and make changes if necessary	Providers
Immediately following submission of MDS data; <b>NO LATER THAN 7 DAYS AFTER MDS SUBMISSION</b>	Submit MDS Certifications electronically to DOH	Providers
June 14, 2023	Final date for Department to <u>RECEIVE</u> Certifications	Providers

The facility certification is **due no later than seven (7) calendar days after submission**. Please ensure your updates are done prior to June 7, 2023 in order to meet the certification deadline.

Please note, if your certification is not received by June 14, 2023, the Department will use your facility's prior case mix index to calculate rates.

Additionally, Public Health Law §12 authorizes the Department to assess a penalty of up to \$2,000 for each violation of any regulation. The Department considers each day that the certification is not submitted by the due date to be a separate violation of 10 NYCRR 86-2.40 (m).
