

THE SOLUTIONS SYLLABUS: QUALITY MEASURES

A Monthly Series to Understanding the Many Layers Associated with QMs
This series is designed for all clinical and interdisciplinary teams

Preferred Therapy Solutions is hosting a monthly educational series based on the RAI Manual for coding the MDS to ensure accuracy with Quality Measures (QMs).

Our Solutions Syllabus will provide extensive guidance on the importance of accurate coding of the MDS and the impact on Quality Measures. This educational series will include a comprehensive guide on QM's and corresponding MDS sections that effect regulatory programs such as 5-Star and are publicly reported through Care Compare. Understanding the data and the significance of coding is vital for SNFs and LTC communities to thrive in the ever-changing healthcare industry.

Throughout the year, we will cover several QMs for an in-depth review. Register below for March, April, and May sessions.

MARCH 22 | 1:30 PM | [CLICK HERE TO REGISTER](#)

Introduction to QMs: Quality Measures Made Easy

Attendees of this session will gain insight on:

- Each program that uses Quality Measures, including Five Star, QRP, CASPER, and Care Compare
- The reporting period and refresh times for each program
- The types of Quality Measures

APRIL 26 | 1:30 PM | [CLICK HERE TO REGISTER](#)

MDS Section G – QMs Related to Daily Activities and Mobility

Attendees of this session will gain insight on:

- Each QM in an easily understood language
- The resident data that will impact the QMs
- The MDS section(s) used to create the QM calculations

MAY 31 | 1:30 PM | [CLICK HERE TO REGISTER](#)

MDS Section J – QMs Related to Falls

Attendees of this session will gain insight on:

- Each QM in an easily understood language
- The resident data that will impact the QMs
- The MDS section(s) used to create the QM calculations

About the Speaker: Jean Singer, PT, RAC-CT, Director of Outcomes & Quality

Jean Singer is a healthcare leader and strategist of innovative patient outcomes. Her ability to assimilate data combined with exceptional communication skills is a valued resource within the healthcare industry. Jean's many years of experience as a Physical Therapist serving the SNF population led her to strive for excellence in achieving patient outcomes. Not only did she succeed, this was her passion. During her successful tenure with Preferred Therapy Solutions, Jean's expertise and deep knowledge of rehabilitation compliance and regulatory standards provide a respected platform in educational development among her peers, customers, and key stakeholders within the healthcare community.

Preferred Therapy Solutions (PTS) is a leading provider of rehabilitation program management for post-acute care facilities and agencies, offering comprehensive rehabilitation programs focused on superior care and patient satisfaction. PTS provides an unwavering commitment to clinical excellence, evidence-based research, and education. PTS' abilities significantly enhance the quality, scope, and efficiency of post-acute rehabilitation allowing our facility partners to focus on achieving high levels of patient satisfaction and providing excellent patient outcomes.
