Aware Prepare **Update**

NEW YORK STATE | **Department of Health** | **Office of Health Emergency Preparedness**

June 2016

Welcome to the **June 2016** issue of the Aware Prepare Update. This monthly electronic newsletter is your guide to upcoming trainings related to preparedness. These trainings may be provided in one or more of the following formats, including: live webcasts, webinars and in person training; archived webcasts, webinars and on demand eLearning.

CTI-100

Introduction to the Health Commerce System Portal

Wednesday, June 1, 2016 - 2-3pm
Thursday, July 7, 2016 - 10-11am
Tuesday, Aug 2, 2016 - 9-10am

Provider: NYSDOH Commerce Training Institute
Average Completion Time: 1 hr
Continuing Education credits: No
Enroll in LMS Course: CTI-100

The redesigned Health Commerce System (HCS) became available in March, 2010. The HIN and HPN were recreated as the Health Commerce System portal, or HCS. There is no longer a separation between the HPN and HIN.

Objectives:
- Identify the major elements of the HCS architecture
- Identify the features of the HCS
- Demonstrate strategies to customize the portal for your own use.

CTI-120

Integrated Data Reporting in HERDS v.3

Thursday, June 9, 2016 - 1-2pm
Tuesday July 12, 2016 - 9-10am
Monday, Aug 8, 2016 - 2-3m

Provider: NYSDOH Commerce Training Institute

Webinar: Yes

Average Completion Time: 1 hr

Continuing Education credits: No

Enroll in LMS Course: CTI-120

This course provides a solid foundation for adult care facilities, home health agencies, hospices, hospitals, LHCSAs, nursing homes and extension clinics to report data using the HERDS v.3 application.

The course will begin with a look at how to obtain access to HERDS and how facilities will be notified when there are activities to be completed. Learners will then be provided demonstration of the new reporting platform. The session concludes with a brief overview of the pre-selected reports available from the application. This course is presented in a one hour session via WebEx Training Center.

Objectives:
- Locate and modify the person record.
- Explain the importance of the person record in relation to HERDS.
- Demonstrate the ability to review assigned roles.
- Locate and access HERDS.
- Describe the overall structure of HERDS activities.

CTI-200

Communications Directory Certification

Thursday, June 2, 2016 - 10-11:30 am
Monday, July 11, 2016 - 2-3:30 pm
Wednesday, Aug 3, 2016 - 1-2:30 pm

Provider: NYSDOH Commerce Training Institute

Webinar: Yes

Average Completion Time: 2 hrs

Continuing Education credits: No

Enroll in LMS Course: CTI-200

This course provides a comprehensive review of the Health Commerce System Communications Directory, the underlying records that make up the directory, and the tools all HCS users can use to access the directory. This two hour course will begin by examining the structure of the directory and differentiating between the actual contact information records stored for each person in the directory, and the facilities and roles those records can be associated with. Once the structure of the directory has been examined learners will review and have an opportunity to practice with the applications used to access the information stored in the directory. At the conclusion of this course learners will be able to:
- List the components of the Communications Directory
- Summarize how the components are related and work together
- Summarize the HCS emergency call down procedure, describing the role the Communications Directory plays

CTI-300

Integrated Health Alerting and Notification System (IHANS) Training & Certification

Wednesday, June 15, 2016 - 1- 4 pm
Tuesday, July 26, 2016 - 9-12 pm
Thursday, Aug 18, 2016 - 1- 4 pm

Provider: NYSDOH Commerce Training Institute

Webinar: Yes

Average Completion Time: 3 hrs

Continuing Education credits: No

Enroll in LMS Course: CTI-300

This course covers all information necessary to begin the certification process for using the Integrated Health Alerting & Notification System.

Participants will receive hands on practice with the tools and be offered an opportunity to complete certification.

Users who wish to complete certification are strongly encourage to send an advance message to any audience they may broadcast to as part of the certification process. Typically course participants broadcast a sample notification to their HIN Coordinators (LHDs) or Directory Coordinators (NYSDOH).

CTI-500

New York State Evacuation of Facilities in Disasters Systems (eFINDS)

Wednesday, June 22, 2016 - 2-3 pm
Thursday, July 14, 2016 - 9-10 am
Tuesday, Aug 23, 2016 - 1-2 pm

Provider: NYSDOH Commerce Training Institute

Webinar: Yes

Average Completion Time: 1 hr

Continuing Education credits: No

Enroll in LMS Course: CTI-500

The New York State Evacuation of Facilities in Disasters Systems (eFINDS) is the patient/resident tracking application housed on the Health Commerce System (HCS).

This course provides a solid foundation for registering and updating patient/resident location information during an incident or event, such as a storm, flood, non-natural incident or practice exercise/drill.

Course participants will be provided a demonstration of the eFINDS application including: eFINDS Data Reporter and eFINDS Data Administrator role permissions; how to register a patient/resident with a scanner and without; use a spreadsheet to register multiple patient/residents; update patient/resident tracking information as an evacuating facility, and as a receiving facility. The session concludes with hands-on exercises.

CTI-501

eFINDS Self-Paced Learning

Provider: NYSDOH Commerce Training Institute

eLearning: Yes

Average Completion Time: 1 hr

Continuing Education credits: No

Enroll in LMS Course: CTI-501
Required PRIOR to course enrollment:
1. Health Commerce System user ID
2. Either an eFINDS Data Reporter or eFINDS Reporting Administrator role assignment.

This Self-paced course provides a solid foundation for registering and updating patient/resident location information during an incident or event, such as a storm, flood, non-natural incident or practice exercise/drill.

Course participants will be provided a demonstration of the eFINDS application including: eFINDS Data Reporter and eFINDS Data Administrator role permissions; how to register a patient/resident with a scanner and without; use a spreadsheet to register multiple patient/residents; update patient/resident tracking information as an evacuating facility, and as a receiving facility.

Prerequisites: Your NYSDOH facility has received bar coded wristbands dedicated and marked for training purposes.

June 2016 Medical Countermeasure
Clinical Operations Webinar

June 15, 2016
10:00 am – 11:30 am

Topic: Legal Issues for Mass Dispensing and Newly Issued Emergency Use Instructions and Emergency Dispensing Orders

Presenters: Vanessa Murphy, Emergency Preparedness Senior Attorney J.D., M.P.H

Invitees: Public Health Emergency Preparedness Staff

- Local Health Department Public Health Directors, Clinical Directors, Emergency Preparedness Personnel, County Attorneys
- NYSDOH Regional Offices
- NYSDOH Central Office

Description: The June 2016 Medical Countermeasure Clinical Operations Webinar, presented by a NYSDOH attorney, will review legal issues associated with medical countermeasure mass dispensing operations. The presentation will address key legal authorities within the "Pandemic and All-Hazards Reauthorization Act of 2013 (PAHPRA)" and clarify the FDA's authority to support preparedness efforts and rapid response capabilities. Legal issues related to federal and state declarations, licensure requirements, and newly released emergency use packages (e.g., emergency dispensing orders, current good manufacturing practice waivers, and emergency use instructions) s for doxycycline and ciprofloxacin will be highlighted. Health Commerce System posting of newly released fact sheets and crushing instructions will coincide with the webinar.

At the conclusion of the Webinar, participants will be able to:

- Demonstrate a general knowledge of the impact of PAHPRA on future and existing emergency use authorizations and instructions.
- Identify newly developed emergency use packages for doxycycline and ciprofloxacin.
- Name key differences between past and current doxycycline crushing instructions.

How to Register through LMS:

To register: Click on www.nylearnsph.com to access the NYS Department of Health Learning Management System (LMS) and search the catalog for course number **ClinOps-201606** or find the course on the June calendar listed as "**Legal Issues for Mass Dispensing and Newly Issued Emergency Use Instructions and Emergency Dispensing Orders**".

Verification: You will receive an e-mail from NYLearnsPH with the meeting details upon registration.

Password for this and **all** ClinOps Webinars is **welcome2.**

On the day of the webinar: Launch the course though LMS. You will receive a prompt to enter your telephone number. Enter the number for the direct phone line you will use during the webinar. You will be unable to use an extension for the call-back feature. You will receive a call linking you to the audio portion of the webinar. Do not dial in directly.

To minimize audio disturbance during the webinar, please mute your phone when you are not speaking by pressing #5. To un-mute, press #5. In addition, **do not put your phone on hold**, as some phone systems incorporate background music or sounds which disrupt the presentation.

Presentations will be recorded and posted on the LMS after the live webinar.

IMPORTANT NOTICE: This WebEx service includes a feature that allows the recording of audio and visual materials exchanged or viewed during the session. By joining this session, you automatically consent to such recordings. If you do not consent to the recording, do not join the session.

LIVE WEBINARS

Webinar Series on Jurisdictional Risk Assessments

ASTHO, with support from CDC, will host a two-part webinar series in June that will capture information and knowledge garnered from CDC's risk-based funding pilot, an initiative to accelerate the development of public health, medical, and behavioral health risk identification and reduction models. Representatives from state and local health and academia will discuss methodology, lessons learned, and potential applications of jurisdictional risk assessments (JRAs) during both webinars.

Jurisdictional Risk Assessments: Methodology & Application
June 9, 3:30 p.m. EDT
This webinar will capture high level overviews of three JRAs. Representatives from Pennsylvania, Idaho, and New York City will discuss methodology, lessons learned, and potential applications.

Participant Information:
(855) 221-6720 Toll-free
Passcode: 20430440
Registration link: https://cc.readytalk.com/r/5x367vsz1dnw&eom

Jurisdictional Risk Assessments: A Deep Dive into Methodology
June 28, 3 p.m. EDT
This webinar will provide an in-depth look at the methodology the New Jersey Department of Health used to conduct their JRA.

Participant Information
(855) 221-6720 Toll-free
Passcode: 20444117
Registration link: https://cc.readytalk.com/r/1ge5k2l4q8vm&eom

LIVE WEBINAR

The Office of the Assistant Secretary for Preparedness and Response (ASPR) Critical Infrastructure Protection Program Webinar: Resources for Power Restoration Planning

When: June 9, 1:30-2:30 p.m. ET
Description: This webinar, hosted by ASPR's Critical Infrastructure Protection team, will focus on power restoration planning resources. Speakers include Kristen Finne, project lead of HHS emPOWER Initiative; David Bishop, National Temporary Emergency Power project manager at the U.S. Army Corps of Engineers; and Eric Cote, project director for Powered Patients. For questions, contact CIP@hhs.gov.

Registration: No registration required. Join the webinar online or call 202-774-2300, access code: 67411014.

**New York State Department of Health
Office of Heath Emergency Preparedness
and the Commerce Training Institute**

MERITS: Medical Emergency Response Inventory Tracking System
For Local County Health Departments

Background:
MERITS is the Health Commerce System application that was designed in 2009 to track inventory for the New York State Department of Health and Local Health Departments. This includes tracking inventory received from the Centers for Disease Control and Prevention (CDC) Strategic National Stockpile Program. The application manages and tracks asset, provides transparency, while securely protecting private assets purchased by your county health department's own funding source.

Purpose of Training:
This course provides a solid foundation for managing your inventory sites, assets and utilizing reports.

Course participants will be provided a demonstration of the MERITS application including:
- MERITS Administrator, MERITS Data Processor, MERITS Data Reporter and MERITS Equipment-Supply role permissions;
- how to add a site; add an item to the master inventory;
- receive inventory for NYSDOH or a vendor;
- convent inventory to smaller units;
- how to process an pick sheet and
- how to utilize MERITS reports.

The session concludes with the hands-on exercise, also known as the Pick List Drill.

Course completion certificates require your attendance during the WebEx training, a passing quiz score (70%) and submission of the course's and trainer's evaluation.

Target Audience:
County Health

June-August 2016 Training Dates (choose one):

Tuesday	June 14	1-2pm
Wednesday	July 20	10-11am
Monday	August 15	2-3pm

Note: Training will be on going

How to Register:
To register for the webinar, please click

https://www.nylearnsph.com and either register or login to the LMS. Search Course Catalog for **CTI-101** and enroll in a session OR click this shortcut to the course enrollment page on the LMS: https://goo.gl/qjQdV2.

Questions Regarding Training:

CDC ZAP Teleconference on Vector Control and Surveillance

Date	Time (EDT)	Topic
Wednesday, May 25	1 p.m. to 2 p.m.	Vector Surveillance and Control
Thursday, June 2	2 p.m. to 3 p.m.	Sexual Transmission/Pregnancy Planning
Wednesday, June 8	2 p.m. to 3 p.m.	Epidemiology
Monday, June 13	1 p.m. to 2 p.m.	Diagnostics: Laboratory Capacity and Testing Interpretation

More specific information on the featured topic, including a PowerPoint presentation and participant information, will be provided prior to each conference call as soon as the information is available. There will be an opportunity for questions following each presentation, but participants can also send questions in advance to preparedness@cdc.gov.

When possible, CDC encourages participants to dial into the calls in groups as a limited amount of phone lines are available. Conference call recordings will be available online for those unable to participate in the conference calls. Participant information is shown below.

Medical Matters 2016

Sponsored by the Medical Society of the State of New York

Webinar

Zika Virus: An Evolving Story - Update

Wednesday, June 8, 2016 - 6:00pm

Faculty: William Valenti, MD, *Chair, MSSNY Infectious Disease Committee*
Elizabeth Dufort, MD, FAAP, *Medical Director, Division of Epidemiology, NYS Department of Health*

Educational Objectives:

- Describe the epidemiology of Zika Virus infection
- Understand the modes of transmission
- Understand how to advise patients
- Learn methods for prevention of infection

To Register, Please: Click Here

Go to "Upcoming" tab and register for program

For information, contact: Melissa Hoffman at: mhoffman@mssny.org or call: (518) 465-8085

Funding provided by the New York State Department of Health

The Medical Society of the State of New York is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.
The Medical Society of the State of New York designates this live activity for a maximum of *1.0 AMA/PRA Category 1 credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

NEW YORK STATE | **Department of Health** | **Office of Health Emergency Preparedness**

DISASTER MENTAL HEALTH RESPONSE TO A MASS SHOOTING INCIDENT: VICTIMS, FIRST RESPONDERS AND COMMUNITY RECORDED SESSION

Overview

This recorded training focused on the needs of a wide spectrum of individuals who are affected by a mass shooting event; surviving victims, families of those wounded or killed, witnesses of the attack and first responders and receivers.

While the training focused on disaster mental health interventions for these disparate groups it also addressed the characteristics that may shape the immediate response to mass shootings – for example, how necessary law enforcement actions may affect survivors' experiences during the event and how the common politicization of these events may increase subsequent distress.

The training, sponsored by SUNY New Paltz Institute of Disaster Mental Health, used an applied approach, teaching specific skills and providing opportunities to practice them, during the course of the webcast. It also incorporated personal stories from individuals who have provided DMH services to those directly involved in a mass shooting incident.

Target Audience

Disaster Mental Health Responders.

Faculty

James Siemianowski, Director, Quality Management & Improvement Division, Connecticut Department of Mental Health & Addiction Services

Kathryn Dean, MSSW, Coordinator, Connecticut Disaster Behavioral Health Response Network, Connecticut Department of Mental Health & Addiction Services

New York State Department of Health
Office Health Emergency Preparedness
Psychological First Aid (PFA) On-line Training

Overview

Psychological First Aid (PFA) is an evidence-informed modular approach for assisting people in the immediate aftermath of disaster and terrorism: to reduce initial distress and to foster short- and long-term adaptive functioning.

It serves today as one of the basic tools used to inform first responders and receivers, incident command systems, primary and emergency health care providers, public health, school crisis response teams, faith-based organizations, disaster relief organizations, Community Emergency Response Teams, Medical Reserve Corps and the Citizens Corps in diverse settings. This simple and straight forward supportive intervention is recognized at the local, state and national levels as an effective way to help those impacted by disaster understand and cope with their reactions. PFA does not require previous training or education as a behavioral health practitioner and can be used by every lay person as well.

Objectives

- To describe what PFA is and why it is important

- To identify the core components of PFA

- To meet the basic needs of individuals who have survived or responded to a disaster or public health emergency

- To recognize the importance of PFA as a key mechanism for enhancing workforce resilience

Registration

Electronic Syndromic Surveillance System (ESSS) Training

Recorded Session

Overview

The New York State Electronic Syndromic Surveillance System (ESSS) monitors near real-time health-related data that is available before confirmed diagnoses or laboratory confirmation to indicate possible outbreaks or health events.   The data along with statistical tools are used to detect and characterize unusual activity for further public health investigation. The goals include: (1) monitor general community health trends, (2) Recognize an outbreak sooner than physician diagnosis and laboratory reporting, (3) Provide objective evidence that an outbreak may not be occurring, and (4) Characterize the geographic and temporal spread of an outbreak after initial detection.

Description

This training is an introductory level course to the New York State Electronic Syndromic Surveillance System (ESSS). The format of this training will be a step-by-step system walk-through which focuses on the utilization of the system applications and interpretation of the system tables and graphs.

ESSS Access Requirement

Access to ESSS is restricted. To participate in this training you will need to request access. To do so please email PPB01@HEALTH.NY.GOV

Target Audience

Local health department staff who are responsible for the investigation and reporting of communicable diseases.

TRAIN CE Course #:   WB 2509

Course ID 1054681

Enroll in LMS Course #: SNS-102 | This course will introduce you to the terminology and concepts of mass dispensing at the community level. "Mass dispensing" refers to the delivery of medications or vaccines to the public to address a public health threat; other terms used to describe this activity include "MCM dispensing" and "mass prophylaxis". Public health threats could include a bioterrorism event such as a release of anthrax into a community or a naturally occurring event such as a novel disease outbreak. This course provides a brief introduction to the steps that occur before medical countermeasures arrive in local jurisdictions and describes basic dispensing methods. |

SNS-103
Closed Point of Dispensing Considerations: an SNS Perspective

| **LMS Course Completion Requirement:** "Message" TRAIN Certificate to Course Administrator

Continuing Education: 1.5 CME; .14 ACPE-Contact Hours; 1.4 ANCC: Contact Hours Continuing Nursing Education; 1.5 MCHES

TRAIN CE Course #:   WB 2509

Course ID 1054681

Enroll in LMS Course #: SNS-103 | The Closed POD Planning course provides state and local agencies with information to manage Closed POD sites during a public health emergency. It covers planning functions for designing a system to quickly dispense prophylactic medications to the employees and their families. The course introduces common terminology and concepts of mass dispensing at the community level. Some locations may use other terminology. |

RSS-101

Receiving, Staging, and Storing (RSS) Training Video

LMS Course Completion Requirement: "Message" TRAIN Certificate to Course Administrator **Continuing Education:** 0 **Course ID 1017208** **Enroll in LMS Course #: RSS-101**	This 14 minute videoarchive provides an overview of receiving, staging, and storing (RSS) Strategic National Stockpile (SNS) assets in the event of a public health crisis. It is designed to provide information to organizations and personnel involved in Strategic National Stockpile RSS functions.

PCEPN-EM101

Emergency Management for Primary Care Centers

Primary Care Emergency Preparedness Network (PCEPN) is co-led by the Community Health Care Association of New York State (CHCANYS) and the Primary Care Development Corporation (PCDC) and was created in close partnership with and support from the NYC Department of Health and Mental Hygiene Office of Emergency Preparedness and   Response. PCEPN helps coordinate planning, training, and response services for the New York City primary care community so they can prepare for and respond to community and citywide needs in the event of a disaster or emergency on a local and regional level.

Provider: CHCANYS **Enroll in LMS#: PCEPN-EM101** Please contact the PCEPN team at info@pcepn.org with any questions or concerns.	This 30 minute pre-recorded course will provide an overview of the four phases of emergency management, the key elements of an emergency management program and plan, staff roles, and the role of the primary care center in emergencies and disasters. This course is recommended for primary care staff of all levels. To receive a certificate of completion for this course please take the pre-test and the post-test. *For optimum performance please use Google Chrome to view*

Create a personal preparedness plan with the Preparedness Wizard

CDC-CERC-01

Crisis and Emergency Risk Communication (CERC)

Provider: Centers for Disease Control & Prevention

Course Updated: 6/25/2014

Average Completion Time: 2hrs

Audience: Federal, state, and local public health professionals; healthcare professionals; emergency medical services professionals; preparedness partners; and civic and community leaders.

Continuing Education: 0.2 CEUs

Enroll in LMS Course #: CDC-CERC-01

At the conclusion of the training, the participant will be able to do the following:

- Explain Crisis and Emergency Risk Communication (CERC) principles.
- Describe the psychology of a crisis and the type of messages each audience needs.
- Explain how to tailor messages.
- Define core concepts of crisis communication planning.
- Explain the roles of the media and spokesperson.
- Describe the benefits of social media and mobile media devices.

CDC-CERC-02

Crisis and Emergency Risk Communication (CERC): Pandemic Influenza

Provider: Centers for Disease Control & Prevention

Course Updated: 6/25/2014

Average Completion Time: 1/2 hr

Audience: Federal, state, and local public health professionals; healthcare professionals; emergency medical services professionals; preparedness partners; and civic and community leaders.

Continuing Education: None

Enroll in LMS Course #: CDC-CERC-02

After completing the training, the participant will be able to do the following:

- Describe the psychology of a severe pandemic.
- Describe how to meet the public's needs through effective messages.
- Explain why stigmatization occurs.
- Explain strategies officials can use to respond to stigmatization.
- Recognize the importance of strengthening community hardiness and personal resilience to provide the optimum opportunity for recovery from the crisis.
- Analyze the ways that information technology and new media influence communication decisions and pandemic preparedness.

CDC-RAD

Radiation Basics Made Simple

Provider: Centers for Disease Control
Average Completion Time: 1.5 hrs
LMS Course Completion Requirement: "Message" Certificate to Course Administrator
Continuing Education: 0.1 CEUs, 1.4 CNEs, 1.5 CMEs
Enroll in LMS Course #: CDC-RAD

The Centers for Disease Control and Prevention, Radiation Studies Branch announces the launch of *Radiation Basics Made Simple*, the first in a series of radiation preparedness training modules. *Radiation Basics Made Simple* introduces participants to the fundamentals of radiation and radioactivity.

CDC-PSYCH

Psychological First Aid in Radiation Disasters

Provider: Centers for Disease Control
Average Completion Time: 1.25 hrs
LMS Course Completion Requirement: "Message" Certificate to Course Administrator
Continuing Education: 0.1 CEUs, 1.2 CNEs, 1.25 CMEs
Enroll in LMS Course #: CDC-PSYCH

Psychological First Aid in Radiation Disasters is a self-study training that uses interviews conducted with experts involved in the Goiania and Three Mile Island incidents, and video scenarios that allow participants to observe how psychological first aid techniques can be employed in a variety of response settings.

FEMA IS-100.B

Introduction to Incident Command System

Provider: FEMA Independent Study
Course Updated: 10/31/2013
On-line Course: Yes
Average Completion Time: 3hrs
LMS Course Completion Requirement: "Message" FEMA Certificate to Course Administrator
Continuing Education: 0.3 CEUs
Enroll in LMS Course #: FEMA IS-100.B

ICS 100, Introduction to the Incident Command System, introduces the Incident Command System (ICS) and provides the foundation for higher level ICS training. This course describes the history, features and principles, and organizational structure of the Incident Command System. It also explains the relationship between ICS and the National Incident Management System (NIMS).

FEMA IS-200.B

ICS for Single resources and Initial Action Incidents

Provider: FEMA Independent Study
Course Updated: 10/31/2013
On-line Course: Yes
Average Completion Time: 3 hrs
LMS Course Completion Requirement: "Message" FEMA Certificate to Course Administrator
Continuing Education: 0.3 CEUs
Enroll in LMS Course #: FEMA IS-200.B

ICS 200 is designed to enable personnel to operate efficiently during an incident or event within the Incident Command System (ICS). ICS-200 provides training on and resources for personnel who are likely to assume a supervisory position within the ICS.

FEMA IS-700.A

National Incident Management System (NIMS) An Introduction

Provider: FEMA Independent Study
Course Updated: 10/31/2013
On-line Course: Yes
Average Completion Time: 3 hrs
LMS Course Completion Requirement: "Message" FEMA Certificate to Course Administrator
Continuing Education: 0.3 CEUs
Enroll in LMS Course #: FEMA IS-700.A

This course introduces and overviews the National Incident Management System (NIMS). NIMS provides a consistent nationwide template to enable all government, private-sector, and nongovernmental organizations to work together during domestic incidents.

FEMA IS-800.B

National Response Framework, An Introduction

Provider: FEMA Independent Study
Course Updated: 10/31/2013
On-line Course: Yes
Average Completion Time: 3 hrs
LMS Course Completion Requirement: "Message" FEMA Certificate to Course Administrator
Continuing Education: 0.3 CEUs
Enroll in LMS Course #: FEMA IS-800.B

The course introduces participants to the concepts and principles of the National Response Framework.
Course Objectives:
At the end of this course, you will be able to describe:

- The purpose of the National Response Framework.
- The response doctrine established by the National Response Framework.
- The roles and responsibilities of entities as specified in the National Response Framework.
- The actions that support national response.
- The response organizations used for multiagency coordination.
- How planning relates to national preparedness.

Columbia Regional Learning Center Online Courses Available for Tracking in the LMS

All courses below are offered through CRLC
Click the course number to be connected to the LMS.

Columbia Regional Learning Center — NATIONAL CENTER FOR DISASTER PREPAREDNESS — COLUMBIA UNIVERSITY MAILMAN SCHOOL OF PUBLIC HEALTH	
Communicating Around Mass Trauma: Implications for Public Health and Response	Enroll in LMS Course: CRLC-CLIN 1601
Basics of Emergency Risk Communication	Enroll in LMS Course: CRLC-COM 1301
Risk Communication for High Risk and At-Risk Populations	Enroll in LMS Course: CRLC-COM 2302
Chemical Emergencies and the Role of Public Health	Enroll in LMS Course: CRLC-ENV 1703
Sea Level Rise and Flood Risk for Long Island Sound	Enroll in LMS Course: CRLC-ENV 3705
The Nurse's Role and Climate Change	Enroll in LMS Course: CRLC–ENV 3711
Conducting Research in a Post Disaster Setting	Enroll in LMS Course: CRLC-EPI 1402
Rapid Needs Assessment with Hand Held Devices	Enroll in LMS Course: CRLC-EPI 2401
Spatial Approaches to Disaster Epidemiology: Dr. Snow Meets the Rev. Bayes	Enroll in LMS Course: CRLC-EPI 3404
Elements of Leadership: Decision-Making & Problem Solving Under Emergency Conditions	Enroll in LMS Course: CRLC-MGMT 1201
Advanced Topics in Point of Dispensing (POD): Design, Management, and Evaluation	Enroll in LMS Course: CRLC-POD 2501
Fundamentals of Emergency Preparedness (Formerly: Basic Emergency Preparedness for All Public Health Workers)	Enroll in LMS Course: CRLC-PREP 1101
Personal Emergency Preparedness: Planning for the Public Health Workers (English and Spanish)	Enroll in LMS Course: CRLC-PREP 1110
Methods of Risk Assessment in Planning for Disasters	Enroll in LMS Course: CRLC–PREP 1112
Chem Rad Bio: Fundamentals for the Public Health Workforce	Enroll in LMS Course: CRLC-PREP 2102
Looking Ahead: Mitigating the Health Consequences of Future Disasters	Enroll in LMS Course: CRLC-PREP 2106
State of the Science: The Health and Mental Health Consequences of Catastrophic Events	Enroll in LMS Course: CRLC-PSY 2902
Dealing with Disaster Related Trauma in Children	Enroll in LMS Course: CRLC-VUL 3801

TRAINING WEBSITE

THE NORTH CAROLINA Institute for Public Health

Biosurveillance Toolkit:

The Biosurveillance Toolkit was created by the North Carolina Preparedness and Emergency Response Research Center (NCPERRC) at the North Carolina Institute for Public Health (NCIPH) with support from the Centers for Disease Control and Prevention (CDC). The Toolkit provides resources relevant to your work in improving biosurveillance.

The toolkit consists of Research, Online Training, Webinar Highlights and Resources.

View the Toolkit at http://sph.unc.edu/nciph/biosurveillance-toolkit/

Emerging Issue: Zika Virus Podcast

NCIPH and the UNC Gillings School of Global Public Health hosted a special *Public Health Behind the Scenes* podcast with public health law experts around the country working behind the scenes on the Zika virus outbreak.
Enroll in LMS: NCIPH-Zika

NCIPH Basics of Public Health Preparedness Training

NCIPH-HEP_ADVPREP1	Introduction to Public Health Preparedness for Preparedness Staff (Basics of Public Health Preparedness, Module 1)
NCIPH-HEP_PREPPLAN	Public Health Preparedness Planning (Basics of Public Health Preparedness, Module 2)
NCIPH-HEP_HSEEP	Public Health Preparedness Exercises (Basics of Public Health Preparedness, Module 3)
NCIPH-HEP_PREPMCM	Medical Countermeasures (Basics of Public Health Preparedness, Module 4)
NCIPH-HEP_RESHLTH	Responder Health and Safety (Basics of Public Health Preparedness, Module 5)
NCIPH-HEP_RESPPE	Occupational Health for Public Health Responders (Basics of Public Health Preparedness, Module 6)
NCIPH-HEP_BEHAVPREP	Disaster Behavioral Health (Basics of Public Health Preparedness, Module 7)
NCIPH-HEP_PARTVOL	Working with Community Partners (Basics of Public Health Preparedness, Module 8)
NCIPH-HEP_DISEPI	Disaster Epidemiology (Basics of Public Health Preparedness, Module 9)
NCIPH-HEP_PREPCOMM	Risk Communication (Basics of Public Health Preparedness, Module 10)

UNIVERSITY AT ALBANY CENTER FOR PUBLIC HEALTH PREPAREDNESS

All courses below are offered through UAlbany
Click the course number to be connected to the LMS

UACPHP-217 Long-term Care Facilities: Emergency Preparedness Plans **Updated!**
2 hour online Course, CEUs available

Enroll in LMS#: UACPHP-217 Long-term Care Facilities: Emergency Preparedness Plans
This lesson provides an overview of the first steps of emergency preparedness planning for Long-Term Care Facilities.
After completing this course, the learner will be able to:

- Explain the benefits of preparedness planning
- Identify who should be involved in planning, both internal and external
- Explain the all-hazards model of planning and its advantages
- Explain the critical issues in emergency preparedness planning for long-term care facilities.

UACPHP-20150519 CDR HEPC Pediatric Decontamination
1 hour online video training, CEUs available

Enroll in LMS#: UACPHP-20150519 CDR HEPC Pediatric Decontamination
This training will provide a broad overview of potential care needs for the pediatric patient involved in an emergency/disaster situation. This 1 hour training in part of a 1 day training on Pediatric Emergency Preparedness sponsored by the CRD HEPC.
After completing the training, the learner will be able to:
- Understand the unique needs of pediatric patients during decontamination
- Plan and train for pediatric decontamination in the field and hospital setting
Topics covered in the training include:
* Risk factors for exposure/post-exposure * Unique concerns of decontamination of pediatric patients,: ^ Physiological ^ Behavioral/Developmental ^ Logistics * Strategies for implementing decontamination in the field or hospital setting

UACPHP-20150520 CDR HEPC Pediatric Disaster Mental Health
1 hour online video training, CEUs available

Enroll in LMS#: UASPH-CPHP-20150520 Pediatric Disaster Mental Health
This training will provide a brief overview of potential mental health care needs for the pediatric patient involved in a disaster. This 1 hour training is part of a full-day training coordinated by the Capital District Regional Health Emergency Preparedness Coalition.
After completing this training, the learner will be able to:
- Understand the responses to traumatic events that are typically seen in children and teens
- Know how to select and/or deliver psychological interventions that are empirically proven to be helpful with children and teens after a disaster

Topics covered include: 1. Typical emotional and behavioral responses of children to highly stressful events by developmental age.:

2. Psychological First Aid ; 3. Information-gathering techniques ; 4. Assessment of survivors' immediate needs;
5. Implementation of supportive activities.

UASPH-CPHP-20150521 CDR HEPC Pediatric Trauma
1 hour online video training, CEUs available

Enroll in LMS#: **UASPH-CPHP-20150521 CDR HEPC Pediatric Trauma**

This training will provide a broad overview of potential care needs for the pediatric patient involved in a disaster. This 1 hour training is part of a full-day training coordinated by the Capital District Regional Health Emergency Preparedness Coalition. After completing this training, the learner will be able to:

- Identify the primary challenges related to trauma care of the pediatric patient

- Identify the surgical interventions critical to the care of pediatric trauma patients

Topics covered include: *Epidemiology of Pediatric Trauma * Pediatric Injury Patterns * Imaging in Pediatric Trauma

---

UASPH-CPHP-20150522 CDR HEPC Respiratory Problems in the Pediatric Patient
1 hour online video training, CEUs available

Enroll in LMS#: **UASPH-CPHP-20150522 CDR HEPC Respiratory Problems in the Pediatric Patient**

This training will provide a broad overview of potential respiratory care needs for the pediatric patient involved in an emergency/disaster situation. This was part of a 1 day training sponsored by the Capital District Regional Health Emergency Preparedness Coalition.

At the conclusion of the presentation, the participants will be able to:

- Identify clinical challenges in critical care of the pediatric respiratory patient
- Describe emerging clinical modalities for the care of pediatric critical care patients

Topics covered include: Epidemiology • Signs of respiratory distress in children (stridor, asthma, wheezing, ALTE, etc.) • Acute management strategies • Advances in respiratory care (high frequency percussive ventilation and other trials.) • Challenges (including resources)

UASPH-CPHP-20150523 CDR HEPC Pediatric Infectious Disease
1 hour online video training, CEUs available

Enroll in LMS#: **UASPH-CPHP-20150523 CDR HEPC Pediatric Infectious Disease**

This training will provide a broad overview of potential care needs for the pediatric patient involved in an emergency/disaster situation. This training is part of a 1 day training sponsored by the Capital District Regional Health Emergency Preparedness Coalition.

At the conclusion of the presentation, the participants will be able to:

- Identify clinically emergent infectious diseases through visual diagnosis
- Describe the clinical course of emergent infectious diseases
- Review evidenced-based recommendations in the management of emergent infectious diseases

Topics covered include: • Epidemiology and pathogens of emerging infectious diseases • Symptomatology • Diagnosis • Treatment and management strategies

---

UASPH-CPHP-20150524 CDR HEPC Pediatric Triage
1 hour online video training, CEUs available

Enroll in LMS#: **UASPH-CPHP-20150524 CDR HEPC Pediatric Triage**

This training will provide a broad overview of potential care needs for the pediatric patient involved in an emergency/disaster situation. This was part of a 1 day training sponsored by the Capital District Regional Health Emergency Preparedness Coalition.

At the conclusion of the presentation, the participants will be able to:

- Recognize the need to prepare for Pediatric disasters
- Identify the basic steps involved in pediatric disaster triage
- Describe the fundamental difference between adult and pediatric disaster triage

Topics covered include: • Pediatric Disaster Preparedness in Emergency Departments • Unique anatomical and physiological properties in pediatric patients in disasters • Principles of Pediatric Triage • Triage tools & algorithms (START vs. SALT) • PEARLs/Pitfalls of Pediatric triage

Medical Countermeasures ClinOps
On Demand Webinars from PHEEP

ClinOps-201603 Electronic Group Dispensing, Breaking CDMS Updates and L-10 Course Pre-Requisite Preparation

This course will demonstrate the procedure to electronically register, recall and add family or household groups within the Countermeasure Data Management System. Post event reporting and clinical and epidemiological uses for data exports will also be included. Other CDMS development projects will be highlighted, including zika and rabies event types, as well as other programmatic updates. A brief update on the L-10 deliverable conference "Medical Countermeasures (MCM) Mass Dispensing Lessons Learned Workshop" and pre-requisite requirements will also be discussed.

ClinOps-201508 Community Reception Centers, Population Management and Electronic Data Collection and Reporting Systems

This course will include methods to identify, screen, measure and monitor populations for exposure to radiation or contamination from radioactive materials. The presentation will include an overview of the concept of Community Reception Centers (CRC) to provide contamination screening and decontamination services to people displaced by a radiation incident. An overview of the Countermeasure Data Management System CRC Event type will demonstrate point of care documentation, methods to support population monitoring and data reporting features.

ClinOps-201505 Category A Agents and the Application of Preparedness Strategies to Real World Communicable Disease Events

Dr. Daniel Kuhles, Bureau Director, Communicable Disease Control will highlight select Category A biological agents that require special planning and action for public health preparedness. These pathogens are organisms that can be easily disseminated or transmitted from person to person, result in high mortality rates and pose the greatest threats to national security. Dr. Kuhles will also provide examples of real-world communicable disease response events local health departments can support using established medical countermeasure distribution and dispensing plans, emergency preparedness training and data reporting tools

ClinOps-201502 L5 Exercise Data Review and Submission Requirements and Countermeasure Data Management System (CDMS) Enhancements and Promotion Timeline

This course will provide a detailed overview of the post L5 exercise data collection tool on the Health Commerce System, the background for required data collection and the procedure to accurately submit the required exercise metrics after the medical countermeasure dispensing exercise. A demonstration of post exercise reporting capabilities within the Countermeasure Data Management System (formally known as the Clinical Data Management System) will be provided to support select data collection requirements as well as the post-exercise quality review. The CDMS enhancements, including pagination, will be demonstrated and the timeline for deployment will be reviewed.

ClinOps-201412 L-5 Exercise HERDS Updates

This course will provide a review of exercise timelines and HERDS submission requirements for counties choosing to change exercise dates/times or postpone the exercise entirely until the fourth quarter of BP3 or the first quarter of BP4 as a result of local Ebola planning and exercise activities. The post exercise HERDS survey will be reviewed including performance and quality assurance metrics.

ClinOps-201411 Clinical Data Management System: Pre-Registration, Algorithm and Added Features

This course will provide a review of the Pre-Registration functionality and the report export feature of the Clinical Data Management System (CDMS). A demonstration of the SMART form will also be provided using the medical screening algorithm. Added CDMS features, including the addition of multiple medical countermeasures and NYSIIS transfer reports will be presented.
