STATE OF NEW YORK

DEPARTMENT OF HEALTH MEMORANDUM

SERIES - 81-60 DATE - 7-16-81

HEALTH FACILITIES SERIES: NH-28; HRF-28

SUBJECT:

New York State Residential Health Care Facility Accounting and Reporting Manual

REVISION NO. 2

This Department of Health Memorandum transmits the second set of revisions for the New York State Residential Health Care Facility Accounting and Reporting Manual. Included with this Memorandum is a summary of Revision No. 2 as well as the actual revised pages.

The summary of Revision No. 2 has been provided as a ready reference. The revised pages should be compared with those being deleted (to insure the proper identification of the changes) and then inserted in their place.

Most of the changes reflect our efforts to align the Manual with Article 9 of Subchapter A of Chapter V of Title 10 of the Official Compilation of Codes, Rules and Regulations of the State of New York which was adopted by the State Hospital Review and Planning Council on December 4, 1980.

Questions concerning Revision No. 2 or the Manual in general should be directed to:

Mr. Joseph L. Angerami, Principal Health Care Fiscal Analyst N.Y.S. Department of Health Office of Health Systems Management Bureau of Residential Health Care Facility Reimbursement The Governor Nelson A. Rockefeller Empire State Plaza Tower Building, Room 932 Albany, New York 12237 (518) 473-8822

6014	Definition of Department added.

TOWER BUILDING . THE GOVERNOR NELSON A. ROCKEFELLER EMPIRE STATE PLAZA . ALBANY, N.Y. 12237

DAVID AXEL ROD, M.D.

Commissioner

ROBERT M. CRANE

April 1, 1982

Dear Administrator/Controller:

During the course of conducting technical training seminars across the state, several questions have been raised concerning the information requirements of Schedule 1A, pages 42, 43 and 44 of Part IV of the 1981 Annual Report of Residential Health Care Facility, form RHCF-4.

To ensure that each facility is aware of the official agency position with regard to the proper completion of this schedule, the information which follows is being provided to all residential health care facilities and other interested parties at this time.

The completion of Schedule 1A is required of all facilities that have services provided by outside vendors on a fee or contract basis, rather than being performed by salaried personnel at the facility. The information required to be reported on this schedule is necessary for the Department's Bureau of Long-Term Care Services in order to process added staff appeals and for statewide staffing pattern comparisons. This information is also used by the Department's Bureau of Residential Health Care Facility Reimbursement to process added staff appeals and to calculate affordability studies on those facilities requiring labor adjustments in connection with labor settlements.

If a facility, for some reason, is unable to supply any of the information required to be reported on this schedule, the facility should, when filing the RHCF-4, include a letter citing the information that cannot be supplied and the reasons why.

It is important to note that we will not refuse to certify a facility rate, nor impose the rate reduction penalties available to the department under Part 86-2.2 of the Commissioner of Health's Administrative Rules and Regulations, if only this schedule is not fully completed. However, facilities not fully completing this schedule must realize that added staff appeals and/or labor adjustments may not be honored until the required data is submitted.

The foregoing represents the agency's position with respect to reporting for the 1981 calendar year and for contracts entered into up to the date of receipt of this letter. For 1982 reporting purposes, the information on Schedule IA will be required of all facilities. Therefore, facilities should consider these reporting requirements when entering into contracts with outside parties and build language into future contracts which would clearly indicate that, as part of their responsibilities under the contract, vendors must supply the detail to the facility necessary to complete Schedule IA.

As a result of our interaction with the health care industry during the course of our technical training seminars, we have also made one major change in the reporting requirements of Schedule IA. For those facilities that contract with laundry and linen companies for laundry and linen services, the detail for Schedule IA for the laundry and linen cost center will not be required unless, under the contract, the outside vendor's personnel perform their services in a facility's in-house laundry.

If you should have any questions concerning the foregoing, please direct them to the individual assigned to your region as detailed in the Department of Health Memorandum Series 82-7, dated February 25, 1982, which accompanied the RHCF-4 transmitted to your facility.

Very truly yours,

William J. Goraley Assistant Director

Division of Health Care Financing

William J. Dormley
