Please review the Policy and Procedure for Processing the Minimum Data Set (MDS) Assessment Data for Medicaid Rate Setting Purposes (Revised 12/2009) for detail on the MDS data collection process and upload. The policy manual is available on the MDS for NF Reimbursement section of the Health Commerce System (HCS).

All MDS CENSUS DATA must be submitted using the HCS. It is especially important to keep the list of the facility's HCS coordinator and users current to avoid delays in submitting MDS CENSUS DATA. Remember that sharing user accounts is a breach of the security agreement signed by each HCS user. The MDS CENSUS DATA being submitted must be formatted using the DOHMDS for HPN software, a current version of which is always available for download on the HCS.

After your data has been accepted, you will have an additional seven (7) calendar days, specified in the acknowledgement, in which to make corrections.

Copies of the Operator's Certification forms are available on the MDS for NF Reimbursement Section of the HCS. As a reminder, MDS Census data cannot be used for rate-setting purposes until certification forms are on file.
