MLTC Update

- ❑ DOH recently issued Policy Directive 14.05, based on a change in Public Health Law 4403-f(7)(a), requiring Plans to provide aid-continuing for enrollees without regard to the expiration of the Plan's prior service authorization.
- ❑ Enrollees are entitled to receive previously authorized services unchanged pending the outcome of an internal appeal even if the enrollee's service authorization period has expired.
- ❑ In addition, Plans must also comply with aid-continuing while an enrollee is awaiting a fair hearing decision from the Office of Temporary and Disability Assistance.
- ❑ This change applies to enrollees who were in aid-continuing status on or after April 1, 2014.
