**The Hebrew Home at Riverdale has been named by
McKnight's Long Term Care News as
Innovator of the Year**

This prestigious award is in recognition of the Hebrew Home's Zero G and balance system which is an AI powered body-weight system used with our short term rehabilitation patients.

The Home's technology advancements have dramatically transformed the patient and resident experience, improving the quality of life for those in our care.

This expansive and innovative technology is made possible by the generous funding of the Hauser Foundation.
