

## **The Osborn Goes Pink!**

The Osborn and Osborn Home Care ushered in Breast Cancer Awareness Month by kicking off this past Monday dressed in pink and walking in solidarity through the campus for Breast Cancer Awareness Month in October with residents and staff.

The day was capped off by an evening webinar hosted by The Pink Agenda's Speaker Series which included a breast cancer supporter with first-hand knowledge of the disease. The Osborn Community will continue to host activities through the end of October to show support and solidarity for Breast Cancer Awareness.
