Criminal History Employment Determinations

ABSTRACT: Providers must access employment letters on the HPN.

DOH has issued a *Dear Administrator Letter* (DRS 08-08) advising providers of the requirement that CHRC Employment Determination letters must be accessed immediately. Some of these letters may contain information that prohibits the continued employment of an individual as a direct care employee. Not accessing that information potentially places individuals at risk. DOH is advising providers that failure to open these letters may result in the issuance of a statement of deficiencies. The full *Dear Administrator Letter* is attached below.
