

Take your floor care to the next level

A clean floor says “welcome” to your customers. A floor deeply cleaned on a routine basis elevates your positive image and helps your flooring last longer. Cintas delivers our proven method of deep cleaning so that you’ll know your floors are both properly cared for and projecting a sparkling clean image.

We remove between 90 and 100 percent of soil, along with water and moisture. This prevents microscopic fungal growth, ensures quick dry time and meets the highest standard of texture retention. Our technology is powerful, but not harmful.

CUSTOM FLOORING CARE, PROFESSIONALLY DELIVERED

Save money, and let Cintas extend the life of your carpet, tile, grout, carpet tile, vinyl composition tile (VCT) or even concrete. We bring savvy deep clean know-how to every floor we service.

Deep clean service is delivered by certified technicians who know how to balance the key elements of clean: temperature, time, agitation and chemicals. Your needs come first, so services are customized to fit your unique workplace and schedule, and ensure the best, most consistent results without damaging your floors.

The Cintas arsenal of industry-leading equipment means your floors get professional service to help them look spick-and-span once more. We deliver an array of tools and technology to your business – including portable units, roto-scrubbers, wet vacs and our truck – to provide the best results.

Rest easy knowing our work is backed by the Cintas Guarantee, which ensures the highest quality results or we will refund your money.

A recent case study revealed that regularly scheduled floor cleanings cut the cost of maintenance by 22 percent and doubles the life of a floor.
