Quality Apex: A Scientific Crystal Ball

Imagine if you could determine what your 5-Star rates might be in advance of being publicly reported by CMS.

Quality Apex can help your community determine where your rates might be by calculating quality measure rates after every upload of MDS data providing an opportunity to effect change where needed in real time, throughout the quarter.

QUALITY APEX

With Quality Apex there is no more waiting and wondering what your next 5-Star Rating will be!

For more information contact: Marguerite Carroll at mcarroll@leadingagency.org

“Quality Apex has provided us the ability to see the big picture by helping us quickly identify and predict Quality Measure outcomes before the CMS Five-Star ratings are published. The software has improved our MDS submission accuracy by alerting us to upload errors. The data is real-time and current.”

WELCOME TO THE COLER REHABILITATION AND NURSING CARE CENTER

At NYC Health + Hospitals/Coler, we have practiced compassionate, person-centered care for New Yorkers for more than 65 years from our Roosevelt Island location, which offers gorgeous views of the Manhattan skyline.

NYC Health + Hospitals/Coler is a skilled nursing facility providing comprehensive programs and support. We also offer on-site clinical services and an array of therapeutic recreational activities to support our residents’ overall well being. Learn more about amenities and quality of life at: http://www.nychealthandhospitals.org/coler

If you are recovering from a recent hospitalization or need a little extra help taking care of an existing health condition, you're in good hands. At NYC Health + Hospitals/Coler, our team of doctors, therapists and specialists delivers personalized care and support to help maximize your independence.

At Coler, we offer two levels of care:

Sub-Acute Care - If you're recovering from surgery or major injury, our specialists help you continue to get better.
Skilled Nursing Care - Specialized daily care for chronic conditions such as diabetes and chronic obstructive pulmonary disorder (COPD). In addition to caring for your condition, we also use special techniques to help you perform daily living activities, such as getting out of bed.

We also offer specialized long-term programs.

Dementia Care - If you or a loved one is living with dementia, our team of specialists provides care and support to meet your changing needs.
Rehabilitation Therapy - With years of experience and specialized training, our team expertly delivers a wide range of rehabilitation therapies.

Our on-site clinical services team offers comprehensive care for a wide range of medical conditions. With doctors on-site 7 days a week and providing 24 hour a day coverage and access to a variety of specialists, we manage your changing needs without transferring you to another facility.

Our clinical care team includes specialists in:

- Audiology
- Behavioral health
- Bio-engineering (wheelchair maintenance and repair)
- Cardiology
- Dental care
- Diagnostic lab
- Infectious disease
- Pharmacy
- Podiatry
- Primary care
- Radiology
- Rehabilitation
- Speech
- Wound Care

“ProCare staff were extremely knowledgeable, professional, friendly, and helpful during my Mock Survey. They were well-organized and extremely communicative throughout the planning process. The team appreciated how the consultants were so open to answering as many questions as possible. They took their time to look at all aspects of the facility. I was very happy to have a fully written thorough report upon their exit, so that my team could work on a plan of correction to address the issues.”

Graduates Say:

“Leadership Academy has been a life changing experience both personally and professionally. I didn’t know what to expect, I realized in the first session that this was like no training I’ve ever experienced my professional career. If you are undecided, stop thinking about it. Just ask yourself this simple question; “Do I want to be better?” Better what? It doesn’t matter. This academy will make you better at everything you do! It will take you professionally to a place you never thought you could be. Worth the time and the money for you and your organization.”

“The Ignite Leadership Academy is an amazing experience! Networking, learning, socializing with peers – it has everything I need to become introspective and a better leader. The instructors are fabulous and the content is specific to ensuring that each participant gets the most benefit.”

IGNITE Leadership Academy is a nine-month program designed to enhance the leadership skills and core competencies of employees throughout the LeadingAge New York membership. Attendance at four in-person sessions, located at member organizations across the state, is required. Participants will have responsibilities between sessions, including conference calls, reading and other projects.

Enriched by a diversity of backgrounds, job titles and perspectives, the Leadership Academy is open to anyone who works for a LeadingAge New York member. Clinical or managerial experience is not required. Most importantly, we are looking for participants who demonstrate deep leadership potential within their organization.

If you know someone who may be interested in enhancing their leadership skills contact Diane Darbyshire at ddarbyshire@leadingageny.org or call 518.867.8828.
With more than 25 years of experience in providing high-quality legal representation to long-term care providers, our team of professionals can help you navigate New York’s complex and ever-changing legal and regulatory landscape.

Interdisciplinary compliance and quality improvement consulting services for post-acute and long-term care providers

CMS Compliance Group’s consultants have extensive experience working with post-acute/long-term care organizations. CMS CG’s unique interdisciplinary approach to compliance helps providers ensure that all departments and disciplines can achieve and maintain compliance while improving quality. Our objective is not merely to fix problems that arise, but to improve your overall operations, clinical systems and staff performance.
