

General Inpatient Hospice at Amsterdam Nursing Home

Amsterdam Nursing Home is excited to announce a clinical collaboration with Visiting Nurse Service of New York to provide General Inpatient Hospice. According to Senior Vice President and Administrator, Judith Fenster, "we have dedicated 4 beds for patients who need pain control or symptom management that cannot be provided at home and for which in-patient acute hospital care is not appropriate. Patients are admitted from the community, hospitals or Emergency Rooms." For admission to Amsterdam GIP Hospice, patients must be enrolled in VNSNY Hospice & Palliative Care. For more information please call 212-609-1900.
