

THE OSBORN PAVILION EARNS HIGHEST *U.S. NEWS & WORLD REPORT* RATING FOR SHORT-TERM REHABILITATION FOR SECOND YEAR IN A ROW

RYE, NY, November 5, 2019 – The Osborn Pavilion short-term rehabilitation center is proud to once again be named one of New York’s top performing nursing homes by *U.S. News & World Report*. The organization evaluated more than 15,000 nursing homes across the country, including 619 licensed facilities in New York State. Of those 619 in New York, The Osborn Pavilion was one of seven that received the top rating in Short-Term Rehabilitation.

The 2019-20 report is the second time *U.S. News* has rated facilities on Short-Term Rehabilitation based on several factors. One of the measures is the percentage of patients who received more than the minimum amount of therapy indicated for their condition. A higher percentage suggests that patients are receiving therapy tailored to their individual needs.

The Osborn Pavilion is an 84-bed skilled nursing facility, with all-private rooms, that provides skilled nursing care, short-term inpatient rehabilitation and outpatient rehabilitation. The Pavilion is an integral part of The Osborn’s continuum of care.

According to Matthew G. Anderson, President and CEO of The Osborn, “We are delighted once again to receive this designation by *U.S. News & World Report*. This recognition affirms our commitment to quality, compassionate care for all our residents.”

How Facilities are Rated

[The U.S. News & World Report Nursing Home Finder](#) draws on public data provided by the Centers for Medicare and Medicaid Services (CMS) as the basis for its Nursing Home Compare rating system. The Osborn has the highest overall quality rating of five stars from CMS, based on quantitative assessments of state-conducted health inspections. These rigorous inspections assess general cleanliness, food preparation processes, infection control, medication management, and residents’ overall quality of life.
