This distinction confirms our well-trained and caring staff’s unwavering commitment to deliver the highest quality services to our residents in skilled nursing—as well as throughout the entire Osborn community.”

Established in 2009, the *U.S. News* [Best Nursing Homes](#) rating offers comprehensive information about care, safety, health inspections, staffing, and more for nearly all of the nation’s 15,000-plus nursing homes. The ratings reflect the *U.S. News* exclusive analysis of publicly available data using a methodology that evaluates factors that it has determined most greatly affect patient and resident care, safety, and outcomes.

The Short-Term Rehabilitation rating is based on an assessment of 10 quality measures focusing on staffing, medical outcomes, resident complaints, and processes of care. The Long-Term Care rating is based on an assessment of nine quality measures focusing on staffing, medical outcomes, resident complaints, and processes of care, such as vaccinations and appropriate use of some medications. *U.S. News* used scientific literature review, discussions with industry experts, and statistical modeling to select these measures.
