Queens-Long Island Renal Institute, located at The Parker Jewish Institute, launches Home Hemodialysis Program

New Hyde Park, New York, March 15, 2022 – Queens-Long Island Renal Institute (QLIRI), located at The Parker Jewish Institute is pleased to announce the launch of its Home Hemodialysis Program.

QLIRI's Home Hemodialysis Program allows patients to transition from an in-center setting to receiving hemodialysis from the comfort of their home, using the Tablo Hemodialysis System.

Patients who enroll in the program are first trained by a registered nurse. The nurse provides step-by-step guidance four days a week over the course of four weeks, or longer if necessary. During the training, patients learn how to use the system before they transition to home hemodialysis.

Hemodialysis is a treatment that filters wastes, toxins and excess fluid from the blood for people with failing kidneys. Those needing dialysis can spend three-to-five hours a week, several times a week to receive treatment. QLIRI's at-home program provides patients the flexibility to access needed care without ever leaving their homes, while also freeing up time to engage in their daily activities.

"We are so pleased to offer our Home Hemodialysis Program at Queens-Long Island Renal Institute. Thanks to this vital program, patients can receive hemodialysis at home within a schedule that fits their lives. It also removes the time, stress and costs of traveling to and from a clinic. And it affords patients the flexibility and opportunity to take part in activities and commitments that are important to them," said Michael N. Rosenblut, President and CEO of Queens-Long Island Renal Institute.

About Queens-Long Island Renal Institute

Queens-Long Island Renal Institute (QLIRI) is licensed by the New York State Department of Health, and is led by a dedicated, interdisciplinary team of experienced Nephrologists and Dialysis Registered Nurses, a Renal Social Worker, and a Registered Renal Dietitian. The team is ready to meet the individual needs of dialysis patients and families in Queens and Nassau counties.

About The Parker Jewish Institute for Health Care and Rehabilitation

The Parker Jewish Institute for Health Care and Rehabilitation is headquartered in New Hyde Park, New York. The facility is a leading provider of Short Term Rehabilitation and Long Term Care. At the forefront of innovation in patient-centered health care and technology, the Institute is a leader in teaching and geriatric research. Parker Jewish Institute features its own medical department, and is nationally renowned as a skilled nursing facility, as well as a provider of community-based health care, encompassing Home Health Care, Medical House Calls, Palliative Care and Hospice. Parker's Willing Hearts, Helpful Hands aims to improve the quality of life for family caregivers of older loved ones by engaging the broader community to provide assistance and respite services.

About Outset Medical, Inc.

Outset is a medical technology company pioneering a first-of-its-kind technology to reduce the cost and complexity of dialysis. The Tablo Hemodialysis System, FDA cleared for use from the hospital to the home, represents a significant technological advancement that transforms the

dialysis experience for patients and operationally simplifies it for providers. Tablo serves as a single enterprise solution that can be utilized across the continuum of care, allowing dialysis to be delivered anytime, anywhere and by anyone. The integration of water purification and on-demand dialysate production enables Tablo to serve as a dialysis clinic on wheels, with 2-way wireless data transmission and a proprietary data analytics platform powering a new holistic approach to dialysis care. Tablo is a registered trademark of Outset Medical, Inc.
