#### OUR PROGRAM:

**MonitorMe™** is an all-in-one health and wellness concierge monitoring program that utilizes state-of-the-art technology to empower patients to receive the care they need in the comfort of their home.

With the simple touch of a button, you can instantly communicate with a nurse or physician through our **MonitorMe™ Tablet**, which incorporates our proprietary software.

Along with our easy-to-use technology, we also provide **MonitorMe™ Patches**.

Together these devices stream your vital signs and keep you constantly connected to a **Monitoring Intervention Center (MIC)**.

#### INTEGRATED CARE

Our program incorporates the healthcare relationships that you already have. We collaborate with your physicians to ensure that there are no gaps in your care.

#### ALWAYS ON

Our FDA-cleared, light-weight, disposable patch streams your every heartbeat live to our Monitoring Intervention Center (MIC), where we're available to you at any time of any day or night.

#### BOARD-CERTIFIED

We are staffed with a team of clinicians and board-certified physicians who have extensive critical care backgrounds. We will immediately evaluate you and are prepared to intervene if necessary.
