For Immediate Release:

Windsong Mobile Mammography at The Greenfields October 16th

WILLIAMSVILLE – September 19, 2019 – Although early detection of breast cancer is saving lives, many busy women have little time to get screened. To make it even easier, Windsong Radiology has partnered with The Greenfields Continuing Care Community to provide its mobile mammography service on Wednesday, October 16th.

Windsong's mobile mammo will be on hand in the parking lot of The Greenfields located at 5959 Broadway in Lancaster from 9 am to 5 pm on October 16th, providing busy women with the opportunity to have their breast cancer screening.

Women are reminded that a doctor's script is required for the breast cancer screening which is covered by insurance. Women that are interested are encouraged to schedule their appointment to minimize wait time. Women without insurance also welcome. According to Dr. Markus Holzhauser, medical director of the mobile unit, the goal of the mobile mammo unit is to eliminate barriers to this life saving exam. Early detection of breast cancer, when it is most easily treated, does save lives.

The mobile mammo provides women the same access to Windsong's high quality services, including 3D mammography or digital breast tomosynthesis, a state of the art technology that has proven to detect smaller cancers earlier, when they are easier to treat.

To date over 3000 women have been able to take advantage of Windsong's mobile mammography thanks to many partners throughout Western New York, like The Greenfields, who are equally dedicated to removing barriers to access.

To schedule an appointment for this event or learn more, please call 716. 929.9494 or email jtasiak@windsongwny.com. Additional event dates and locations can be found on the website at windsongwny.com/mobile.

About Windsong

Windsong Radiology Group is the largest free standing imaging provider in Western New York and one of the busiest in the nation, performing over 400,000 imaging exams per year. It is a full-service diagnostic imaging practice and breast cancer screening center of excellence staffed by 19 Board Certified and Fellowship trained radiologists who deliver cutting edge service. It was the first center in the area to be recognized as a Breast Center of Excellence by the National Accreditation Program for Breast Centers and has the reputation of pursuing and acquiring the most advanced technology available and employs only highly trained, certified technologists. Windsong Radiology is a member of the Image Wisely® campaign, committed to lowering the amount of radiation used in medically necessary imaging studies and eliminating unnecessary procedures.

About The GreenFields Continuing Care Community

The Niagara Lutheran Health System is a not-for-profit organization that provides for the physical, social, and

spiritual needs of the individuals we serve, in a Christian environment. The GreenFields Continuing Care Community on Broadway in Lancaster provides residential living at GreenField Manor and assisted living at GreenField Court. GreenField Terrace provides memory care and enhanced assisted living. GreenField Health & Rehabilitation Center provides 24-hour skilled nursing care, dementia care, respite care and myriad rehabilitation services.
