

MDS 3.0 RAI Manual Update

CMS has posted version 1.09 of the RAI Manual along with the change tables on the “downloads” section of the [CMS website](#).

Some of the revisions include:

- Chapter 1 – Additional language regarding a resident’s active participation in care
- Chapter 2 – Several clarifications and examples regarding Change of Therapy (COT), End of Therapy (EOT) and Start of Therapy (SOT) assessments; leave of absence from the SNF; and early, late and missed PPS assessments
- Chapter 3 – Clarifications of sections I (active diagnoses), K (swallowing/nutritional status), M (skin), N (medications) and O (special treatments, procedures and programs).
