**Data Notes:** The figures above are compiled by LeadingAge NY using data posted on HealthData NY by the New York State Department of Health (DOH) from facility HERDS reporting.

The Nursing Home and ACF/AL root data are here: <https://health.data.ny.gov/Health/New-York-State-Statewide-Nursing-Home-and-Adult-Ca/6bi9-fsqm>

The Hospital root data are here: <https://health.data.ny.gov/Health/New-York-State-Statewide-Hospital-Staff-COVID-19-V/qfps-y8ta>

DOH updates these on a weekly basis with approximately one week lag. Information above is for the Jan. 25, 2022 week.

Facilities are arranged first by Region, then by County, then by Type, then alphabetically. Note that hospital data only provides percentage of overall staff with boosters, while for nursing homes and ACF/AL the percent of boosted direct care staff as well as residents is also provided. Figures show county medians calculated on reporting facilities of all types (NH, ACF/AL, hospital).
